#### **DEFENCE FORCE BREAKFAST**

On the 7th of September, I set off to meet Mr. McKinley for Women in the Defence Force Breakfast on the Newcastle Foreshore. When we arrived we listened to different women talk about their lives, achievements and success in the Defence Force. There were women there representing all three services; the Air Force, the Army and the Navy. Listening to the women talk about their lives and jobs inspired me a lot more, and gave me more knowledge about being in the defence force than I had known before. Finding out that I could be in a career that I am able to enjoy, travel, learn, lead and inspire others gave me a lot more motivation and greater sense of being in the Defence Force. It was a fantastic experience, and I greatly appreciate Mr. McKinley for giving me the opportunity to go! Thank you.

Breeanna Gregory, Year 10 student

#### Vandalism and students on school ground after hours.

Over the weekend the school was vandalised by people who were on the grounds after school hours. This vandalism included the smashing of a glass door in an attempt to gain entry to a building, damaging window screens, and the removal of plants and throwing these onto the roof of a number of buildings.

Whilst it is disappointing that young people would do this to our school I would like parents to remind their children that they are not allowed on school grounds out of hours without permission and under supervision of staff.

It is important for two reasons the first being if they were to get seriously injured or hurt they may be unable to get the necessary assistance needed. The second reason being they then can't be accused of damaging school property when damage has been done by someone else.

Legally anyone on school grounds out of hours without the authority of the principal can be changed under the Inclosed Lands Protection Act. Fines of up to \$2200 can be issued for being on the grounds without permission.

The Inclosed Lands Protection Act provides a basis for taking action in relation to what is commonly referred to as trespass.

Situations where principals might consider issuing a notice prohibiting entry include:

- where a member of the community constantly traverses the school grounds as a "short cut" and where a right of way does not exist.
- Students continually or repeatedly on school grounds out of hours.

Schools are specifically defined as "Inclosed lands" under the Act. The Act addresses a number of offences relevant to schools such as:

- entry without lawful excuse;
- remaining on enclosed lands after a request to leave;
- behaving in an offensive manner after a request to leave;
- giving a false name and address.

Whilst I know that school grounds are 'great places' for skate boarding or scooter riding students and others need to find another more suitable place. Parents, please ensure your children are not coming onto school grounds out of hours.

#### Whooping cough alert

NSW Health is warning parents to be on alert for whooping cough following an increase in the number of school-aged children diagnosed with the disease over the last few weeks. For more information see: <u>https://www.det.nsw.edu.au/about-us/news-at-det/news/whooping-cough-alert</u>

#### FROM THE SECONDARY DEPUTY PRINCIPAL'S DESK

Our Year 12 students are continuing with their HSC exams and will shortly complete their studies. Staff, students and parents will celebrate the completion of Year 12 at a formal dinner at the Bulahdelah Bowling Club on Thursday 11<sup>th</sup> November.

Year 11 will be engaged in interviews with Mr. McKinley this week in order to plan the next stage of their careers. They will be discussing course choices for 2011 and post school options. Year 10 are also entering the last few weeks of their academic year. Having recently completed their end of year exams, they will tackle their School Certificate next Monday and Tuesday. A note will be coming home shortly, informing parents about end of year activities and key dates for Year 10.

This week secondary students will commence fortnightly sport. The program will run over the next four weeks and will enable students from Year 8 to Year 11 to travel beyond Bulahdelah to experience a wider range of recreational activities in larger centres like Forster.

As part of our Transition Program into high school, our 2011 Year 7 Adviser will be visiting our local primary schools in the next couple of weeks to gather information about children intending to enrol next year. The school will also be hosting students from the Myall Learning Community for a sports day this week and an orientation day in early December to help our 2011 students move successfully into high school and meet some of their peers prior to commencing next year.

Finally can I request that parents please contact the school either by phone or note to inform us if your child is absent, particularly for extended periods. It is a legal requirement that parents provide an explanation for student absences from school.

Roger Horton, Secondary Deputy Principal

#### PRIMARY HAPPENINGS FROM THE DEPUTY PRINCIPAL

The term continues to roll on and the students continue their learning across a range of disciplines. Some of our staff members have also been involved in professional learning. Five staff members have been participating in "Accelerated Literacy" training. Accelerated Literacy is a teaching strategy designed to dramatically improve literacy skills. This approach has proven success with Aboriginal students. The strategy targets students who have failed to make appropriate literacy gains in school, those who are in danger of falling behind and is also suitable to develop high level literacy skills for all students. Features of the Accelerated Literacy pedagogy:

- Rapid literacy gains
- Measurable growth
- Comprehensive development of literacy
- Strong oral language development
- High level of motivation in learners
- Culturally inclusive access to academic literate discourse
- Can be applied from Kindergarten to post Year 12
- Whole class program
- Application across all subjects
- Emphasises quality literature
- Strong theoretical base

Staff who have not been trained in 2010 will be trained in 2011, to ensure continuity of teaching K-6. It is important that teachers continue to learn, so that we can continually improve our teaching practice and thus improve the learning outcomes for all students. If we are to be a true learning community, then ALL students and staff need to embrace the concept of lifelong learning!!

Our 2011 kindergarten students enjoyed their first taste of "big school" last Wednesday. Orientation will continue for the next 3 weeks.

Due to numbers in 2011, we are planning to start the year, at this stage, with six primary classes. Classes have not been finalised. Staff will be working on this between now and the end of the year.

**Some dates for your diary: 1/11** Assembly; **3/11** Kindergarten Orientation, MLC Sports Day; **4/11** BCS tennis championships – Stage 3; **5/11** BCS tennis championships – Stage 2; **8/11** Swimming commences; **10/11** Kindergarten Orientation. - - *Sally Thompson, Primary Deputy Principal.*

#### Helpful hints for school-aged children:

**NUTFICION NOTE** School-aged children (ages 6 to 12) continue to need healthy foods and nutritious snacks. They have a consistent but slow rate of growth and usually eat four to five times a day (including snacks). Many food habits, likes, and dislikes are established during this time. Family, friends, and the media (especially TV) influence their food choices and eating habits. School-aged children are often willing to eat a wider variety of foods than their younger siblings. Eating healthy after-school snacks are important, as these snacks may contribute up to one-third of the total calorie intake for the day. School-aged children have developed more advanced feeding skills, are better at feeding skills, and are able to help with meal preparation. The following are some helpful mealtime hints for school-aged children:

- Always serve breakfast, even if it has to be "on the run." Some ideas for a quick, healthy breakfast include the following: fruit, milk, bagel, cheese toast, cereal, peanut butter sandwich
- Take advantage of big appetites after school by serving healthy snacks such as the following: fruit, vegetables and dip, yogurt, sandwich, cheese and crackers, milk and cereal set good examples for eating habits.

• Allow children to help with meal planning and preparation. Serve meals at the table, instead of in front of the television, to avoid distractions.

The BCS Canteen staff **Sheryl Barry (Canteen Manager) and Stephanie Dennis (Assistant)** continue to provide a healthy and varied selection of foods for our students and staff. They prepare healthy one-off specials each week. These specials are publicised each fortnight in the school newsletter, on the school web site and the daily notices. Students and staff are invited to order from this list in addition to the Menu/Price List. Specials this fortnight are:

### SUMMER SAFETY FOR KIDS

#### SUNSAFE ADVICE:

#### Babies under 6 months:

 The two main recommendations from the AAP to prevent sunburn are to avoid sun exposure, and dress infants in lightweight long pants, long-sleeved shirts, and brimmed hats that shade the neck to prevent sunburn. However when adequate clothing and shade are not available, parents can apply a minimal amount of sunscreen with at least 15 SPF (sun protection factor) to small areas, such as the infant's face and the back of the hands. If an infant gets sunburn, apply cold compresses to the affected area.

#### For All Other Children:

- The first, and best, line of defense against the sun is covering up. Wear a hat with a three-inch brim or a bill facing forward, sunglasses (look for sunglasses that block 99-100% of ultraviolet rays), and cotton clothing with a tight weave.
- Stay in the shade whenever possible, and limit sun exposure during the peak intensity hours between 10 a.m. and 4 p.m.
- On both sunny and cloudy days use a sunscreen with an SPF of 15 or greater that protects against UVB and UVA rays.
- Be sure to apply enough sunscreen about one ounce per sitting for a young adult.
- Reapply sunscreen every two hours, or after swimming or sweating.

• Use extra caution near water and sand (and even snow!) as they reflect UV rays and may result in sunburn more quickly.

#### HEAT STRESS IN EXERCISING CHILDREN

• The intensity of activities that last 15 minutes or more should be reduced whenever high heat and humidity reach critical levels.

• At the beginning of a strenuous exercise program or after traveling to a warmer climate, the intensity and duration of exercise should be limited initially and then gradually increased during a period of 10 to 14 days to accomplish acclimatization to the heat.

• Before prolonged physical activity, the child should be well-hydrated. During the activity, periodic drinking should be enforced, for example, each 20 minutes, 5 oz of cold tap water or a flavored sports drink for a child weighing 90 lbs, and 9 oz for an adolescent weighing 130 lbs, even if the child does not feel thirsty.

• Clothing should be light-colored and lightweight and limited to one layer of absorbent material to facilitate evaporation of sweat. Sweat-saturated shirts should be replaced by dry clothing.

• Practices and games played in the heat should be shortened and more frequent water/hydration breaks should be instituted.

Lest We Forget

An unexamined life is a life not worth living - Socrates
